Occupational Health

At CHMG Occupational Health, we offer a wide variety of services to meet your employees' immediate and long term needs. When injured on the job, employees can be seen quickly at our walk-in clinics and urgent care centers, where we treat minor injuries. When longer term care is required, our case managers follow patients through a treatment plan for their recovery. Individual care plans include physical and occupational therapy as needed.

In addition to injury management, we offer diagnostic services, such as pulmonary function testing, blood testing, EKGs and audiograms. We also offer employment physicals, drug and alcohol screenings and an array of preventive services. Below is a comprehensive list of our services.

Occupational injury management

- Minor injury (trauma) treatment (walk-in/urgent care).
- Treatment plans/case management.
- Consults and expertise on toxic exposures, epidemiology.
- Physical and occupational therapy.
- Health psychology services and pain management.
- Registered nurses on site.

Diagnostic services

- Pulmonary function testing.
- Comprehensive blood testing.
- EKG.
- Audiograms .

Occupational physical exams

- Pre- and post-employment physical demand testing based on essential functions of job description.
- DOT certification/recertification exams.
- Respiratory fitness evaluation.
- Impairment ratings for set disabilities.
- MMI evaluations.
- IME (Independent Medical Evaluations).
- Fit for duty exams.

Preventive services

- Job-specific ergonomic analysis.
- Functional capacity evaluations.
- TB skin testing.
- Influenza and hepatitis immunizations.
- Medical surveillance (i.e. audiograms).
- Post-offer employment testing - Licensed WorkSTEPS provider. (Visit worksteps.com for more information. Contact us at 970.297.6568 with questions or call 970.297.6581 for scheduling.)

Drug and alcohol screening

- Urine specimen collection.
- DOT/Non-DOT testing.
- Instant/on-site drug testing.
- Evidential Breath Alcohol Testing (BAT).
- Medical Review Officer (MRO).
- Consortium/TPA services (Greeley location).
