Add a Secondary Device to DUO

You may want to add additional devices in your Duo profile. For example, you could add a land-line phone as a backup method to use with Duo. There are a few options as noted in the screenshots, and you can add multiple "devices".

Connect (https://myappsduo.uchealth.org)

Login using your Windows Credentials

On the DUO Authentication Method Screen, select My Settings & Devices

On the My Settings & Devices page, select your method of PUSH.

Accept the Push to your mobile Device. You will then be able to click on Add another Device

	My Settings	& Devices	
uchealth	🛱 Android 3	03-905-8876	Device Options
	+ Add another dev	rice	
What is this? 다 Add a new device	Default Device:	Android 303-905-8876

Enter the Phone Number

í	Enter your phone number	
	United States	uchealth
	+1 Example: (2011) 224-5678	What is this? 🗗
٦	Extension:	My Settings & Devices Need help?
_		Powered by Duo Security
	Back Continue	Powered by Duo Security

Then click on the box to verify the number you entered is correct, then click continue

You can also select with device is the default Device, click continue to login once you are done modifying your devices.

You will now have a device drop down box on the push screen in which you can choose which device to use when sending the Notification.
